The committee for the Fourth will add to the events already announced to take place, other interesting features for that occasion.

The quantity of ice cream, soda water and beverages which tickle the palate during these sultry days, gives evidence that small change is by no means scarce.

The subscription books of the Yavapai Development Company have been turned over to the store of Bashford & Burmeister, where subscriptions will continue to be taken.

The hours for the open air concert at Whipple Barracks have been changed, commencing from yesterday. They will be given at from 6 to 7 every evening, Saturdays excepted.

Martin Mader filed a petition in the district court this morning against Wong Lee, to quiet title to a lot in Prescott. It is probable that this action will be amicably settled, as the property in question was conveyed under a misapprehension regarding its owner.

FROM FRIDAY'S DAILY.

The boys propose to get up a dance on Wednesday evening next at the opera house.

The Murray Brothers came in to-day with load of ore from Congress mine for shipment.

Garden truck of every description, of the best quality is abundant in our provision stores.

Mrs. James A. Bayard, wife of the ex-secretary of the territory, is recovering from the effects of a serious and protracted illness.

A musical and dramatic entertainment will be given at the opera house next Friday evening, May 31st, by the pupils of St. Joseph's academy.

He was employed as a watchman in a saloon, and was accused of taking away two brushes and disposing of them. A ranchman, who is in need of a cook, will probably pay his fine and take him into service.

The Arizona Lumber Company recorded a deed of conveyance November 12, 1888, to L. D. Haynes, of property described as east one-half of southeast quarter, section 20, township 21, north range 6 east. Consideration, \$35. Same property conveyed April 30, by L. D. Haynes to Carl Rudeburg, for \$300.

## EPOCH.

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory, and the agency whereby the good health has been attained is gratefully blessed.

Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health, to the use of the Great Alternative and Tonic. If you are troubled with any disease of Kidneys, Liver or Stomach, of long or short standing, you will surely find relief by use of Electric Bitters. Sold at 50c. and \$1 per bottle at Beaumont Cox's Drug Store.

W. W. Ross, proprietor of the Corner Drug Store, has added extensively to his already large and assorted stock of drugs and chemicals, and will continue to sell as low as the lowest.

A brooch and fan were found this morning by some of the "boys in blue," and they will be returned upon application at the Barracks.

But few money orders have been sent from the Prescott postoffice during the last week. So much the better, and a good sign for home patronage.

Harry Hayward, of the Prescott Junction Hotel, visited his old haunts this morning, and is well contented with the business outlook of his house.

The ranchmen of this county should exert themselves to make a good exhibit of their products at the coming fair at Albuquerque. They can take the "eat" if they make the effort.

The Bellevue Hotel is still in possession of its renovators, and will not be opened for some days yet. The notes last Monday, however, led many to believe that it had resumed business.

An alarm of fire was sounded this morning at about 2 o'clock. The scene of the blaze was the Chinese Joss house, on Granite street. The fire was extinguished before any of the companies were on the ground, with only slight damage.

Location notices have been filed as follows: Frank Shiffer, Siskiyou mine, and Siskiyou extension, Walker district, the Oro Bonita, and John Franks, all in the Walker district.

Flowers are in demand as Memorial day approaches. Our people might profit by the lesson the demand teaches, and cultivate their gardens, not only for profit but for adornment. We pity the man or woman who does not love flowers.

Harry H. Jeffords was appointed United States District Attorney for Arizona. He is the senior partner of the firm of Jeffords & Franklin, at Tucson. He is now, and has been for some years past, district attorney for Pima county, and is universally esteemed.

Letters are daily received from many parts of the union by the Development Company, soliciting information regarding Arizona, and particularly of the resources of this county. Attention is now directed to the opportunity of this section of Uncle Sam's domain.

Fresh supplies of chickens were received to-day, and are selling at \$9 a dozen. They came from this vicinity, and are beautiful. There is a hint of money in produce and poultry in this county. If ranchmen would turn their attention more to these specialties, their purses would suffer only from a plethora.

Attorneys say that never have they known before, on the eve of the session of court, that there has been such an absence of personal violence. It has often been remarked that just before the term begins, scenes of disorder and riot have been so frequent that the calendar of litigation is in convalescent.

The court house looks as spick and span as a bright new pin, having undergone a thorough cleaning from top to bottom.

The open air concert at Whipple Barracks last night was an exceedingly agreeable occasion. The ladies attended in great numbers, and were most tastefully arrayed, presenting an almost metropolitan appearance. The excellent string band, led by Prof. A. Merz, supplied the music, to the notes of which the dance was indulged in up to 2:30 o'clock this morning.

Mr. and Mrs. Charles Goldard arrived this morning from Gillette and departed for Belmont this afternoon.

J. L. Fisher has not arisen exactly like a phoenix from the ashes, but is damaged by Saturday's fire, his colors still wave.

We are authorized to state that the invitation dance, announced for next Wednesday, has been postponed until next week.

A. G. Pendleton will commence the survey of the projected annex to the Arizona Central road to-day. He is accompanied by six assistants, and the construction of the new road is but a question of time.

The dagger and revolver are holding high carnival in San Francisco. Scarce a day lapses without its record of blood. Last Wednesday a soldier, maddened with jealousy, murdered a woman, then took his own life. Thursday, Mrs. Donahue, widow of a millionaire, was assassinated with a pistol, the handle of which was inscribed "I am a murderer."

Friday chronicles the dastardly attempt on the life of Mrs. Willard Wright by her husband, who, in a moment of frenzy, fired four shots, wounding her perhaps fatally. As to murders, the number is in the more humble walks of life, they are we may say numerous. The assassin lurks by day and by night in the pretentious mansion as well as in the lowly cottage.

Business Booming.

Precisely no one thing has caused such a general revival of trade at Beaumont Cox's Drug Store as their giving away to their customers of so many trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable article, from the fact that it always cures and never disappoints. Coughs, Colds, Asthma, Bronchitis, Croup, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size \$1. Every bottle warranted.

We have received from N. O. Murphy a copy of the acts, resolutions and memorials of the Fifteenth legislative assembly.

Our merchants tell us, that last week was a busy one for them, all things considered. This week opened fairly, with good prospects for improvement.

The clans are gathering for the commemoration of Decoration day, and the veterans are brushing up their battle-worn blouses and faded kepis.

President Isaac T. Stoddard, of the Oro Bella company, who has recently erected a mill in the Bradshaw country, is in town purchasing supplies.

The scrubbing and scouring and hammering within and without the Bellevue Hotel, indicate the early resumption of business in that popular hostelry.

The murky appearance of the clouds indicates, as well, as the low, overcast predicted rain when it didn't come, that we won't risk our reputation as a prophet any more.

Operations at the sampling works are proceeding satisfactorily in advancing the electric plant, which we are placing in position.

It is understood that an impetus has of late been given to the thought of improving the vacant area surrounding the plaza. We hear of many projects that are yet in abeyance, waiting only for the maturing plan.

The father would confer an inestimable blessing on a patient people if they would see that the streets be put in good order for the celebration of the Fourth. Our gentle zeptyls are not discriminating as between broadcloth and hosiery.

Reliable authority is given for the statement, that a large hotel is to be built on the corner of Goodwin and Cortez streets. It will fill a space of seventy-five feet front and one hundred and twenty-five feet deep, and be three stories in height.

The west-bound train on the St. Louis and San Francisco road, was wrecked last Friday night, seventy miles from St. Louis. The locomotive, baggage car and five coaches went over the embankment. Fifty-five passengers are known to have been dangerously hurt.

Location notices have been filed for record by T. C. Husted and George Elkin, of Endora, Lilly Bell, Elkin, Leota, Crown Point and Morton mines in Granite district. John Raible has given a bond, in \$5,000, to George Roderburg for a deed to a interest in the Rapid Transit South mine. Joseph Elkin files location notices of White Elephant mine, Walker district.

The sheriff and other gentlemen were enjoying a comfortable siesta on the porch of the court house yesterday evening, and it was observed, that a fountain on each side of the walk would be an additional attraction to the plaza. The cost would be small, and it will be fully justified by the charm it would lend to the appearance of the grounds. "A thing of beauty is a joy forever."

The remains of Barry Mathews, who was lately killed at St. Johns, were conveyed and interred at his home here, in Columbus, Miss. Upon the way, a funeral cortege, composed of the Bar association, various civic and military organizations, escorted them to their resting place, where imposing ceremonies were performed. His body was viewed by a large number of friends and acquaintances of his early manhood.

At a meeting of the committee of ladies to arrange wreaths for the decoration of soldiers' graves on Memorial day in San Francisco, a letter was read from the department of the interior, requesting the committee to send flowers to the Arizona posts. If our citizens would make it a rule to cultivate flowers and embellish their homes with gardens, the necessity of appealing for aid would be obviated.

We are often told that the climate and soil of this section are unpropitious for the cultivation of fruit and flowers. This is sheer nonsense. Where there's a will there's a way. There was no more unpropitious outlook for the culture of gardens than that afforded by Portland, Oregon, yet in that city the most sensitive plants bloom all through winter, notwithstanding incessant rains during six months in the year. Utah Territory was once an arid, desolate desert, yet its gardens and orchards are unrivaled in their beauty and luxuriance. So might Arizona be.

The funeral obsequies of W. T. Osenberg took place this afternoon, the procession, consisting of a military escort, formed of Barrett Post G. A. R., and a full representation of Ashton Lodge, No. 1, R. A. M., and a retinue of mourners.

The discourse accompanied the remains to the Congregational church, where services were solemnized by Rev. E. W. Wyckoff. Prof. Thomas presided at the organ, and the requiem music was rendered by Mrs. W. E. Hazeltine, Miss Mimi Martin, Prof. D. M. Martin and E. M. Clark. An eloquent tribute to the memory of the deceased was delivered by the officiating minister, and the coffin was committed to the grave in the Masonic cemetery. The pall bearers were, R. Connell, J. W. Riley, J. J. Hawkins, F. Brecht, T. Winters and G. E. Berry.

The breath of a chronic catarrh patient is often so offensive that he becomes an object of disgust. After a time ulceration sets in, the spongy bones are attacked, and frequently entirely destroyed. A constant source of discomfort is the dripping of the purulent secretions into the throat, sometimes producing invertebrate bronchitis, which in its turn has been the exciting cause of pulmonary disease. The brilliant results which have attended its use for years past properly designate Ely's Cream Balm as by far the best and only cure.
